

# The OIST Graduate University Policies, Rules and Procedures

Authority: Approved by the President

## Chapter 19. University Events

### 19.1 Policy

Members of the OIST Graduate University (the University) are encouraged to organize international conferences, workshops, seminars and courses (collectively, “Academic Events”) that facilitate scientific interaction and promote the University mission [\[link: 1.2\]](#). The University also wishes to be a friendly, welcoming location that supports local communities, staff, students, family members, and visitors through a variety of functions and activities, including, but not limited to, meetings, artistic activities, public lectures, conferences, workshops, concerts, and cultural clubs. Collectively, Academic Events and the other activities dealt with in this chapter will be referred to as “Events.”

NOTE: This Chapter does not deal with permanent or semi-permanent allocation of teaching space (rooms, lecture halls, and the like) for courses, classes, and teaching as part of the Graduate School curriculum, nor does it address use/booking of those spaces. Allocation and use of teaching space is a responsibility specifically vested in the office of the Dean of the Graduate School [\[link: 2.4.5\]](#).

### 19.3 Rules for Scheduling & Booking Venues

#### 19.3.1 Rooms

Rooms and similar venues (those which are not “teaching spaces” reserved for the use of the Graduate School) must be booked using the University’s online Exchange *room reservation system*. Reservations can be made up to one year in advance. Booking priority is given to official University functions. Conflicting requests and double bookings will be dealt with on a case-by-case basis by the office of the Vice President for Communication and Public Relations [\[link: 16\]](#).

For information concerning the booking of “common space” rooms by members of the public, please see Public Use of Common Space [\[link 19.3.2.4\]](#) in this chapter.

#### 19.3.2 Conferences, Workshops, Seminars, Exhibits, Events

#### 19.3.2.1 Academic Events:

In January of each year, applications must be submitted to the Workshop Committee for Academic Events which are *to be held at the University during the fiscal year commencing 16 months later (April of the next year)*. This lead-time is critical to the process of evaluating, prioritizing, locating, and calendaring academic events. NOTE: After an Academic Event has been approved, significant variations in the size and scope are not permitted without the prior approval of the Workshop Committee. A significant variation is defined as a change of more than 5% in the total budget, or a 10% change in the number of participants in different categories. Substitution of speakers due to cancellation is permitted within these limits. Applications for variations will be considered at the next meeting of the Workshop Committee. At least one month should be allowed for approval of variations.

19.3.2.1.1 The Workshop Committee reviews the applications and makes recommendations to the President. Incomplete applications will be returned without review.

- Applications will be evaluated according to the scientific merits of the proposed Academic Event and the costs and benefits to the University of hosting it.
  - A budget must be provided in accordance with the recommendations of the Workshop Committee.
  - If *additional external funding* support is being requested or has been received for an Academic Event, this fact must be stated in the original application.
  - Funding awarded by the Workshop Committee may not be supplemented from the budgets of Research Units.
- Criteria for student participation, selection and financial support should be detailed.
- Applicants must provide an indicative list of names and affiliations of the proposed speakers.
- The Workshop Committee will review applications submitted outside the closing dates at its next meeting.

19.3.2.1.2 Academic events must be coordinated between the Unit that proposes the event (and its program, content, speakers) and with the University's Conference and Workshop Section in the

Communication and Public Relations Division, which is responsible for the logistics. Questions about the details of the application process may be referred to the Vice President for Communication and Public Relations .

19.3.2.1.3 Logistical support for travel, accommodation and facilities, websites, etc. will be provided by the University's Conference and Workshop Section.
